

Media Server Qube Control™

Full control of Robe's StageQube 324 LED panels is provided via the new Media Fusion Qube Control software running on Robe's Media Server Qube Control PC. Media Server Qube Control supports VGA-IN, S-video and Composite input in combination with all the effects of MediaFusion Qube Control Software on board. The hardware specification includes an Intel Core 2 Duo processor, ASUS P5N32 motherboard, 150 GB hard disc, ASUS V N7950GX2 graphics card and a 19" LCD display. The computer unit is fully flight cased for portability.
